## MAIL DI RICHIESTA GIUNTA DAL NOSTRO REFERENTE IN UCRAINA PER ALCUNI PROGETTI UMANITARI DA SOSTENERE NEL 2016

Da sempre fedeli al concetto di trasparenza assoluta nei confronti dei nostri amici e sostenitori, pubblichiamo di seguito il testo integrale della mail che ci ha inviato Bogdan Bashtovy, nostro "storico" referente in Ucraina, relativa alla richiesta di sostegno di alcuni progetti per l'anno 2016.

Il Consiglio Direttivo di CFP Onlus in data 10/02/2016 ha dato il nullaosta alla realizzazione degli stessi, con una spesa massima sostenibile di € 10.000. Copia del verbale di delibera può essere scaricata dalla sezione "Bilanci e atti vari" del nostro sito.

I dettagli di ogni singolo progetto possono essere esaminati nelle schede che precedono la presente nella sezione "Progetti" del sito ufficiale [www.cfponlu.org](http://www.cfponlu.org).

**Oggetto:** 2016 projects

Dear Andrea,

I am sorry it took me so long to write. Most of our projects are now outside of Kiev and its difficult to manage projects from a distance - I have to travel a lot and it is expensive and takes a lot of time. It is also very difficult to find partner orphanages or schools with professional and trustworthy managers like Alevtina in Tsurupinsk or Svetlana in Kiev.

At this point these are our ideas for projects in 2016:

ONLUS ORGANIZZAZIONE NO PROFIT

- 1). Individual sponsorships. If possible, we would like to continue the support for 10 orphans at 40 euro per month. It is very big help, especially to orphanage graduates from Eastern Ukraine.
- 2). Medical assistance to Tsurupinsk orphanage and orphanage graduates. This help is still very much needed. It has been VERY big help in 2015. We will appreciate any amount but 200 euro per month for Tsurupinsk plus 200 euro for graduates (400 per month total) would be ideal. For 11 months - 4400 euro.
- 3). "Otchiy Dom" shelter (Krasnoarmeysk). Krasnoarmeysk is a small town near Donetsk, near the war. The shelter is very poor but run by a very honest and caring man. I will send you some photos. Very nice place. They have 30 children from the war zone and they really need to replace beds and mattresses. The total cost of 16 bunk-beds and 32 mattresses is about 5100 euro. They have many other needs like computers, furniture, etc but beds and mattresses are the basic needs.
- 4). Energy conserving project. Over the last 2 years the cost of heating has increased by 300% in Ukraine while everyone's income has dropped. It has become a huge problem for most people, especially orphans. We want to help them reduce their heating bills in the winter with the help of some heat-conserving technologies. We would like to give orphanage graduates some 'subsidies' to buy individual heat meters, for example, and/or replace old windows, or insulate their homes in other ways. Graduates will have to pay part of the cost. We can give approximately 250-300 euro for 1 apartment. For 5 apartments it would be 1250-1500 euro. I can make more detailed calculations.
- 5) College Tuition for Handicapped Orphans in Kharkiv. We have been cooperating with Kharkiv College of Economics. It is one of the few schools in Ukraine that accepts orphans with physical handicaps. They offer 3-year programs in accounting and social work. One semester is 130 euro, so the cost of 1 student for 3 years is 780 euro. In 2016 we would like to sponsor 5 students (if possible). If we start in September the cost will be  $5 \times 130$  euro = 650 euro (1 semester).
- 6) Construction courses and tools for orphanage graduates. We have many orphanage graduates who work in the construction industry. Some of them work for companies, some repair apartments. Most do very simple work and get paid little money. They could make more money if they had better training and access to professional tools. There is a training center in Kiev that offer 2-month trainings for plumbers, electricians, etc. We could sponsor 6-8 graduates to get trained and buy construction tools that they can borrow and use in their work. The cost of the training will be 480-640 euro. The cost of the tools - around 1000 euro.
- 7) Trip to Kiev for a group of orphans from Eastern Ukraine (Krasnoarmeysk and/or other cities near the war zone). The children near the war zone have been witnessing a lot of terrible events during the last 2 years. We would like to give them a positive experience and take them to fun places in Kiev. They can stay for free at Orphanage No.12. The orphanage workers will cook for free and help. We need money only for

train tickets, food and some admission tickets to children entertainment places (some places will donate tickets but some we will have to pay). The total cost for a 3-day trip will be around 900 euro. We would like to do it in May or June when the weather is nice.

I will write about each project in more detail, with photos and calculations, if necessary. I understand that CFP would prefer to invest money into the future of the kids instead of helping with material needs. I agree with that. And I am looking for ways to do it. Thank you for being so patient with me Andrea.

Best,  
Bogdan
